Integrated Direct Drive Top and Bottom Feed Lockstitch Sewing Machine with Long Stitch Length and Electronic Control

Highlead
爱海美

Maximum sewing speed: 3500 rpm

Straight drive all in one head extension design oversized needle pitch automatic lubrication up and down composite feed automatic thread trimmer electronic handwheel position LED light electromagnet tension post.

Suitable for thick and heavy material like thick leather artificial base sofa bag, etc...

HIGHLEAD

DY851 Integrated Direct Drive Top and Bottom Feed Lockstitch Sewing Machine

This machine model is designed with powerful mini direct drive servo motor and machine head integrated with control modular. It features original appearance with Highlead brand characteristics and contemporary spirit, low noise, low vibration, energy saving convenient installation, easy maintenance and large working space. The built-in operating panel, electronic dial and LED sewing light make stitching operation enjoyable. The fork feeding mechanism and synchronized feeding by presser foot and feed dog guarantee nice stitches. The electromagnetic thread snap device enables neat stitches at start and prevents bird-nest. It is equipped with auto thread trimmer and auto lubrication for smooth machine running long machine life time and high production efficiency. This product is available for stitching seat cushion, sofa, bags, luggages, tents etc.
